

EMPOWERMENT through *Discovery.*

Measuring time, costs and experiences

Helping organisations discover truths, identify value and empower teams to achieve positive business outcomes.

Cogniom's TANDM Suite helps organisations to embrace data to establish 'before and after' baselines to measure against allowing leaders to quantify the impact of change and prove the **value** of transformation projects.

Use the TANDM Suite to:

-  Quickly establish a **baseline** and understand the current 'state' of a business
-  Measure real time results against **Benefit Realisation** metrics
-  Monitor your **Value Proposition** metrics and validate they are achieved over time
-  Present a data driven **Business Case** to business leaders and decision
-  Quantify your impact and prove the **value** of transformation projects
